

Structural Engineers Association of Massachusetts SEAMass

Membership Application

You are cordially invited to join the Structural Engineers Association of Massachusetts (SEAMass). SEAMass is a non-profit organization established to pursue the common interests of practicing structural engineers and others sharing an interest in the profession of structural engineering. The purpose of the organization is:

- To promote and advance the art, science, practice and image of structural engineering.
- To serve the professional development interests of structural engineers.
- To promote communication and recognition among structural engineers and related professionals.
- To promote and maintain professional standards of and qualifications to practice in Massachusetts.
- To communicate the ethics, standards, goals and accomplishments of the Association to structural engineers, related professionals, government and the public.

SEAMass membership benefits include:

- Member rates for SEAMass sponsored events.
- Monthly subscription to *Structure Magazine* – the practicing structural engineer's resource magazine produced jointly by the National Council of Structural Engineers Associations (NCSEA), Structural Engineers Institute (SEI) and the Council of American Structural Engineers (CASE).
- SEAMass is the Massachusetts member organization of the National Council of Structural Engineers Associations (NCSEA). SEAMass members are members of NCSEA and receive all benefits provided by NCSEA including their event member rates. NCSEA pursues many goals such as the structural engineering voice for building code advisory, advocacy of the profession which seeks to improve and enhance the image of structural engineers and secure respect for the profession, promoting the creation of state structural emergency response plans through its member organizations, promoting certification of structural engineers leading to separate licensing of structural engineers.

Membership of SEAMass is initiated by completing the attached application. Licensed professional engineers who are registered to practice structural engineering in the State of Massachusetts would be admitted as **Professional Members** upon approval of their application. Unlicensed professional engineers as well as individuals sharing an interest in the activities of SEAMass would be admitted as an **Associate Member**. Full-time students pursuing a degree towards structural engineering would be admitted as a **Student Member** upon approval of their application.

The SEAMass Officers look forward to receiving your application. If you have any questions, please do not hesitate to contact any one of the Association officers listed below:

Edward H. Moll II, P.E.	President	(978) 745-6817 x12	president@seamass.org
