

## MEET A SEAMASS MEMBER:

### Brian Twomey, PE

*Brian is a Senior Project Manager with Simpson Gumpertz & Heger Inc.'s (SGH's) Structural Design group, and a SEAMASS Director. In his role as SGH project manager and engineer for structural design group, he provides and manages analysis, design, and construction administration services for a range of new building projects. Brian earned both his Bachelor and Master of Science degrees in Civil Engineering (Structural Engineering concentration) at Worcester Polytechnic Institute.*

*He has answered the questions below, so we may get to know him better. Thank you, Brian, for your contributions to SEAMASS and the Structural Engineering profession!*

#### **Q: Why did you join SEAMASS?**

**A:** I joined SEAMASS because I have enjoyed the activities and educational programs that SEAMASS offers. Being a member of SEAMASS supports the organization and aids in its continued success. I joined the Board of Directors because I want to contribute to the continued advancement of our profession at a local level.

#### **Q: As an engineer, what accomplishments are you most proud of?**

**A:** I'm proud that I had the opportunity to design the Be Like Brit Orphanage in Grand Goave, Haiti. SGH did this design work pro-bono and I am grateful for the experience of working on a project that makes an impact on many young lives. Seeing so many people volunteer their time to design and construct a great building for an amazing organization was truly rewarding.

#### **Q: How do you spend your free time?**

**A:** In my free time I enjoy going out to dinner and going on family adventures with my wife and son. I especially enjoy spending time in my homeland (Maine). When I can, I like to get out to the golf course and pretend that I'm good at golf.
